

JOSESDIO

Frontend Engineer (React / Next.js)

Jakarta, Indonesia • +62 813-3410-2692 • josesdio948@gmail.com • linkedin.com • github.com • portfolio-josesdio.vercel.app

PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of experience building responsive, high-performance web applications using Next.js, React, and TypeScript, with additional working experience across Laravel and Node.js backends. Currently developing Electronic Medical Record (EMR) systems for the healthcare sector. Experienced across the full product lifecycle, from UI architecture and API integration to performance optimization and cross-team collaboration in agile environments. Seeking to bring this experience to a frontend/full-stack role abroad.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Redux, Framer Motion, Shadcn UI, jQuery, HTML5, CSS3

Backend / Database: Laravel, PHP, Node.js, Prisma, PostgreSQL, MySQL

Mobile: Flutter, Dart, Swift

Tools & Practices: Git, GitHub, Vercel, Agile/Scrum, REST API Integration, WebSocket

WORK EXPERIENCE

Frontend Developer | PT Permata Azzuri Sehat

March 2026 – Present • Jakarta, Indonesia

- Architect and develop Electronic Medical Record (EMR) systems using Next.js, React, TypeScript, and Redux for healthcare providers.
- Build secure, intuitive interfaces for clinical workflows, focusing on data accuracy, performance, and usability for non-technical medical staff, while collaborating with backend and product teams on scalable frontend architecture.

Junior Frontend Developer | Mimin.io

February 2025 – March 2026 • Jakarta, Indonesia

- Developed the frontend for 'Chat Flow', an interactive AI chatbot workflow builder, using Next.js, TypeScript, Tailwind CSS, Framer Motion, and Shadcn UI.
- Built complex, drag-and-drop style logical configuration interfaces while maintaining smooth, responsive interactions for non-linear workflows.
- Worked on the Mimin Website Revamp (Next.js, Tailwind CSS) and the Mimin Company Profile platform (Laravel, MySQL) for backend features and database management.

Intern Software Engineer | Mimin.io

February 2024 – February 2025 • Jakarta, Indonesia

- Built the Mimin Business dashboard and customer-facing modules, streamlining WhatsApp Business API integrations and omnichannel communication tools.
- Developed and optimized the Mimin Order Management System, a multi-tenant platform serving multiple client brands (Flimty, Wellings, Solo Pizza, FLIX) using Laravel, CSS, and Bootstrap, ensuring consistent UI across all client instances.
- Contributed to the FLIX Re-Design project using Next.js, and worked across both Laravel Blade and Next.js codebases depending on project needs.

SELECTED PROJECTS

Unified Dashboard – Mimin.io *Next.js, Tailwind, Zustand*

- Built a unified dashboard consolidating Mimin's product suite: Gen AI Chatbot, Voice AI, Omnichannel, and Campaign Blast.

Learning Management System – SMAK St. Louis 2 Surabaya *Next.js, PostgreSQL, Fullstack*

- Developed a full-stack academic system managing schedules, classes, and learning paths for Admins, Teachers, and Students.

KlinikMe – Cloud Clinic Management System *Next.js, Healthcare IT*

- Built frontend modules for a cloud-based clinic management platform covering patient registration, electronic medical records, billing, pharmacy stock, and clinic reporting dashboards.

Sinar Jaya – Warehouse Inventory System *Next.js, Inventory Management*

- Developed an internal stock management application for warehouse operations, covering inventory tracking and stock control for the business's retail goods.

PT Multi Abadi Gracindo – Company Profile *Next.js, Interactive Calculator*

- Built a company profile site for a metal manufacturing business, including an interactive instant price-estimate calculator that generates a spec sheet based on service, material, and thickness selection.

IDPlay – ISP Company Profile *Next.js, Tailwind, Strapi, Node.js*

- Built an ISP brand profile site for package discovery, user information, and subscription history.

EDUCATION

Bachelor of Computer Science — Bina Nusantara (BINUS) University

2021 – 2025 • Focus: Web & Mobile Application Development, Algorithms, Data Structures, System Design

CERTIFICATIONS

- Intensive Bootcamp: React JS for Front End Development (2023)
- Intensive Bootcamp: Flutter for Mobile Development (2023)
